

# ODYSSEUS

EUROPEAN YOUTH SPACE CONTEST

Space ...  
a place for your ideas!

Explorer  
17-22 years

Pioneer  
14-19 years

Skywalker  
7-13 years

Help your students win awesome prizes with Odysseus.

[www.odysseus-contest.eu](http://www.odysseus-contest.eu)

The Odysseus II Project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640218.

# THE ODYSSEUS CONTEST

**Get your students involved in a European contest.  
For the chance to win telescopes and iPads, all they need to do is  
prepare an original image related to space.**

## ..... HOW TO PARTICIPATE .....

### WHAT TO DO

In the **Skywalkers** category (**ages 7-13**), pupils participate **as individuals** with the support of a supervising adult (a teacher or parent, for example). They should prepare an original image dealing with space. The image can be produced manually (a drawing, painting, mosaic, etc.) or in digital form (using a camera or computer design program). If produced manually, the image must then be digitally photographed or scanned for submission.

### THEMES

The solar system and space sciences, Europe in space, Humans on Mars, Astrobiology - the search for life in the universe.

### IMAGE SUBMISSION

The **deadline** for submission (delivery date) is **March 31, 2017**. Images must be submitted online using the profile created by the supervising adult during the registration phase.

### PRIZES

A jury will select the national and European winners. The winning pupils will have their images displayed and they will be awarded telescopes and/or iPads.

**Act now.**

**Register your students for the Odysseus space contest**

..... EXAMPLES FROM THE 2015–2016 CONTEST .....

Mars exploration, lunar bases, life in the universe, earth views - just a few examples of work submitted by Skywalker finalists during last year's Odysseus contest. National winners received a real flying rocket to perform experiments and competed in the European finals for additional prizes.

More information about the contest is available on the Odysseus website  
**[www.odysseus-contest.eu](http://www.odysseus-contest.eu)**

# Additional information

The Skywalkers category is split into two groups: Juniors - ages 7 to 10; and Seniors - ages 11 to 13.

Each supervising adult can submit entries for up to 50 pupils. Each participant must have an adult consent form signed by his or her parent or legal representative.

If you have older students who might like to participate in the Pioneers category (ages 14 to 19), please visit the contest website for further information.
